

CORE

design LucidiPevere

Mariani's objective is to produce high quality, technical innovation and design taking care of every detail. Among all **CORE** is the major example of this research. **CORE** is an Italian product of high quality in DuPont™ Corian®, with ad hoc mechanism and customizable.

Why DuPont™ Corian®

This material, being functional and elegant, is used for many projects thanks to its technical characteristics:

Resistant

Long lasting supports daily wear and is able to resist knocks scratches and cutting.

Hygienic

DuPont™ Corian® is a non porous material, hygienic and does not allow the growth of germs or fungus. DuPont™ Corian® has been certificated as hygienic material according to the international norm DIN EN ISO 846.

Not toxic

DuPont™ Corian® is inert and not toxic. Thanks to this and other characteristics DuPont™ Corian® is widely used in public and private spaces.

Repairable

The surface of DuPont™ Corian® is restorable and can be renewed with common detergents in powder and an abrasive sponge. Even damage caused by improper use can normally be eliminated.
